BOLOGNA SUMMER MEETING

Sharing Experience: Atrioventricular Septal Defect

08:00 – 09:00 **Registration**

09:00 – 09:15 **Welcome**
Prof. G. Gargiulo, *Bologna* – Prof. M. Bonvicini, *Bologna*

OPENING LECTURE

09:15 – 09:45 **Atrioventricular canal defects: anatomy, morphogenesis and genetics**
Prof. B. Marino – *Rome*

SESSION 1

Moderation:
A. Donti, *Bologna* – B. Murzi, *Massa*

09:50 – 10:10 **Fetal diagnosis of complete atrioventricular septal defects: in utero anatomic evolution and postnatal outcomes**
D. Prandstraller – *Bologna*

10:10 – 10:30 **Biventricular repair of complete atrioventricular septal defects: how to do it**
E. Angeli – *Bologna*

10:30 – 11:00 **COFFEE BREAK**

11:00 – 11:20 **New horizon in neonatal perfusion**

SESSION 2

Moderation:
C. Pace Napoleone, *Torino* – L. Galletti, *Bergamo*

11:20 – 11:40 **Age, weight and surgical techniques: can we still talk of risk factors?**
M. Kostolny – *London*

11:40 – 12:00 **Management of complete atrioventricular canal defect with associated cardiac defects**
A. Carotti – *Rome*

MAIN LECTURE

12:00 – 12:30 **Surgical repair of complete AVSD: what did we learn in the last 30 years?**
B. Murzi – *Massa*

12:45 – 14:00 **LUNCH**

SESSION 3

Moderation:
G. Egidy Assenza, *Bologna* – G.B. Luciani, *Verona*

14:00 – 14:20 **Better surgical prognosis for patients with complete AVSD and down's syndrome?**
R. Formigari – *Bologna*

14:20 – 14:40 **Crucial points in follow up strategies of complete AVSD**
G. Rinelli – *Rome*

14:40 – 15:00 **The arrhythmic problems of corrected AVSD**
S. Foresti – *Milan*

15:00 – 15:20 **Long term results after surgical correction of complete AVSD: repair or replacement of the incompetent left AV valve**
M. Pozzi – *Ancona*

15:20 – 15:40 **A well-established product design process: the LivaNova experience in valve design**

15:40 – 16:00 **Remarks and conclusions**
