- **Pulmonary hypertension**

TOPICS

PERFUSION VALLEY IN SUMMER TALKS 2025

Summer Talks it's an international meeting that takes place in Bologna with the intention to reunite the most important experts of diagnosis and treatment of congenital heart defects. It also tend to encourage discussions and exchanges on good practices and methodologies for the benefit of this field.

But this is not all, Summer Talks is much more. Bologna is located in a specific region of Italy, called Emilia Romagna. From this land, are produced most of the tecnologies for the extracorporeal circulation.

"Perfusion Valley 2025" in the Summer Talks, it's a new international initiative. It will facilitate the perfusionist from all over the world to have the opportunity to discuss on a very complex theme, such as the emergency management of newborns with congenital heart disease

All the companies that works in the sector of perfusion or in particular in this "Valley", will be asked to present their technology and their history, in order to participate in highly specialized sessions. Furthermore, they will take part of the "perfusion round tables" with perfusionists and doctors.

- **Management of newborns with congenital cardiac difect: low birth weight and preterm babies, special skills**
- **Selective organ perfusion**
- **ECMO team**

NURSE TRAINING IN SUMMER TALKS 2025

- **Point of care ultrasound in the NICU**
