## RESCUE in DIFFICULT ENVIRONMENT

New Advances in Mountain, Sea and Space Rescue. A new approach against the consequences of climate change

**GENOA, ITALY**  
March, 19<sup>th</sup> - 21<sup>st</sup>, 2025

# WORKSHOP PRATICO

March, 19<sup>th</sup> 2025 - h 08.30 a.m. /01.30 p.m.  
Genoa - Porto Antico

- Four scenarios will be developed, in the vicinity of the conference venue at the Porto Antico, Genova, on board patrol boats, or similar means, of the Coast Guard and the Italian Navy. Scenario 2 will be simulated in the facilities adjacent to the conference venue.
- There will then be 4 groups, each with 7 students, which will then interchange, allowing everyone to perform the 4 scenarios. Each scenario will last approximately 1 hour.
- **Registration will only be allowed for congress registrants and will be free of charge once the maximum number of 28 has been reached.**

### SCENARIO 1

**Recovery and advanced management of a patient with severe hypothermia (ECMO-ready)**

Simone Rinaldi | Niccolò Stomeo | Navy

### SCENARIO 2

**Chest trauma in an impervious environment: integrated CNSAS and Guardia di Finanza rescue**

Claudia Dallari | Fabio Berizzi | Giovanna Aspesi | CNSAS Liguria | Guardia di Finanza

### SCENARIO 3

**Airway management in diver recovered from GC patrol boat**

Mattia Bixio | Luca Carengo | Coast Guard

### SCENARIO 4

**Massive haemorrhagic trauma at sea: use of REBOA on a Coast Guard patrol boat**

Marco Tartaglione | Carlo Coniglio | Coast Guard

\*Logistics will be evaluated in the days leading up to the event in consultation with the Coast Guard and Navy.
